

Paid Access

Practical for every store and restaurant ...

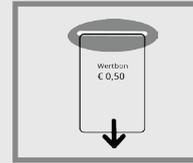

near train and bus stations, in commercial areas, near educational institutions, along highways, near tourist hot spots, in pedestrian areas, near parks and sports grounds, ...

“Why pay again?”

It can happen that your guests feel treated unfairly if they have to pay for the use of the toilet after having eaten, paid entrance or having shopped. Gotschlich is the only manufacturer who offers a solution: via tokens and/or barcode (also in combination) you can guarantee free access.

Paid Access

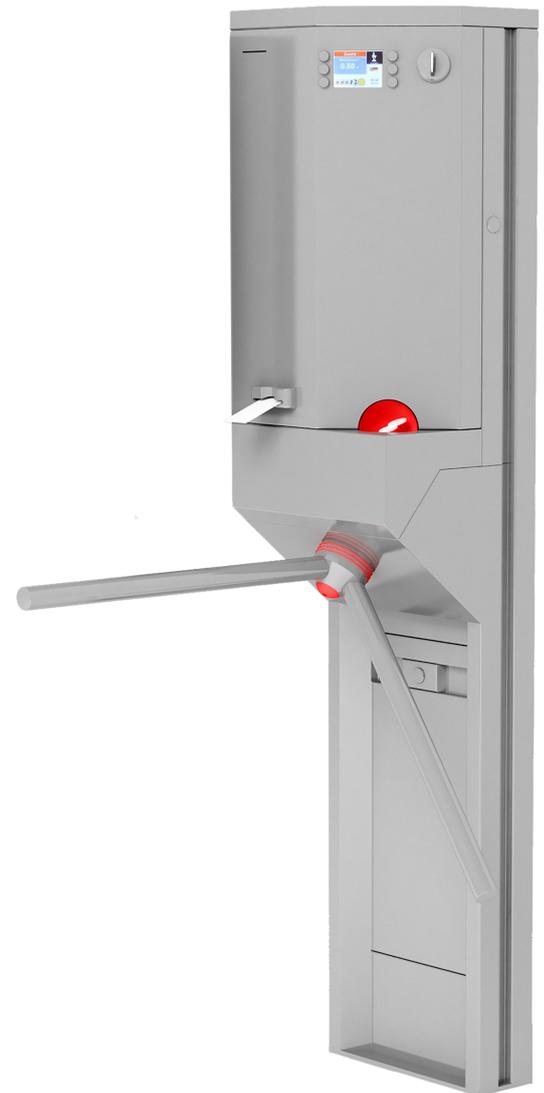

Trinity

- ◆ Compact, space-saving and secure

Solutions for emergency exit and wheelchair accessibility

- ▶ "Tandem" installation of 2 turnstiles
- ▶ Folding gate
- ▶ Escape door
- ▶ Ikarus motorized gate

These Gotschlich products are TÜV-certified and suitable for barrier-free escape routes.

The Trinity payment machine is available with 2-arm or 3-arm technology, or even without barrier in order to work with different turnstiles.

Our products can be delivered on steel platforms. All wiring can be implemented from the floor, the wall or even from the ceiling.

Does size matter?

Our Trinity payment machine can be combined with all of our products.
Even with fullheight-turnstiles, if space is available and unauthorized access is to be avoided.
Suitable for indoor and outdoor entrances.
Here are some examples:
