Description

The motorized full-height turnstile ECCO 120 BFT allows the passage of persons in wheelchairs, with strollers, bikes or bulky luggage.

ECCO 120 BFT is particularly suitable for perimeter protection of factories, as well as for stadiums, leisure parks and entries from garages into buildings.

ECCO 120 BFT is suitable for one- or two-way operation and provides a high degree of comfort through the 120° division while offering safe separation of persons.

Application Areas

- Factory security
- Stadiums and leisure facilities
- Parks und parking garages
